

Sets Function

1. len()

2. max()

3. min()

4. sum()

5. any()

6. all()

```
len({0,False,1,True})
```

2

Sets Methods

1. add() ✓
2. clear() ✓
3. copy() ✓
4. pop() ✓
5. remove() / discard() ✓
6. difference() ✓
7. Update() ✓

⇒ Avoid adding mutable elements in the set

⇒ Always remember how sets are unordered.

⇒ Sets are excellent for membership test

for 'a' in s1:

and removing duplicates from other iterables.
